

SCAFELL 4 SOLAR

Who I am. What I will do.

My name is Josie. I am 9 years old.

I am going to climb Scafell Pike to raise money for Bussage School's Solar Panel Project.

Please sponsor me.

Fun Fact

Scafell Pike is the highest mountain in England.

It is 978 metres high.

It is found in the Lake District National Park, in Cumbria.

Solar Panels

Solar panels capture the sun's energy and convert it into electricity. A solar panel consists of cells made from layers of semi-conducting material, most commonly silicon. When light shines on this material, a flow of electricity is created.

My Goal

To raise over **£100** for the Bussage School Solar Panel Project.

To get at least 20 people to sponsor me.

To climb Scafell Pike!

Help me get there by sponsoring me:
